

## Peer Assessment Contribution for milestone 2

Name	Percentage of contribution	List of items contributed	Sign
Rashed Abdin	25%	Updating/Reviewing product backlog and updating to Jira, creating/updating sprint backlog for sprint 1 and 2, creating/reviewing user stories, completing sprint planning and retro notes for sprint 1, sprint planning for sprint 2, meeting minutes, assigning tasks to the group, scheduling meetings with group and helping/guiding the group with any problems they have with completing a task, helping group with implementation of backend and front end for login/registration and adding books.	Rashed Abdin
David Aziz	25%	Product backlog, User Stories, GitHub, helping teammates with implementation and development of the code. Giving group ideas on how to solve implementation and problems	David Aziz
Kowsar Rahman	25%	Implementation both front end and back end using spring boot and react, implementing add/remove books, login and register and with the help of team members we were able to make project running with all user stories being completed and tested. I also dockerised react and took screenshots of tests being run	Kowsar Rahman
Oliver Lukis			
Dunith Nadvi Karawita	25%	Created book microservices backend Created unit testing and acceptance testing	Nadvi Karawita

*Note: we have spoken to Reza about Oliver's absence, we are not quite sure what's been happening and as a result of his absence for the entirety of sprint 2 we had to do more work to compensate for his absence.*
