

## Wireframes and design

The wireframes and design were created using the tool Figma. These wireframes and design are based on our product backlog and user stories

This is the login wireframe:

The wireframe shows a login page for 'Bockeroo'. At the top, there is a purple navigation bar with the 'Bockeroo' logo and links for 'Home', 'About', 'Contact', and 'Terms and Conditions'. Below the navigation bar, the main content area is white. In the center, there is a login form. The form starts with a blue circular icon containing a white person silhouette. Below the icon are two input fields: 'Username' and 'Password'. Under the 'Password' field, there is a link that says 'Forgot your password?'. Below the link is a green 'Login' button. At the bottom of the form is a blue button that says 'Take me to registration instead'.

This is the login page where all users will be able to login into BOOKERO and depending on the type of user will be de directed to a specific page

Sign up wireframe:

Sign up

**Bookeroo** Home About Contact Terms and Conditions

Just some few steps away from joining Bookeroo

☐ Publisher/Shop Owner ☐ Customer

The sign up wireframe allows all users to register an account with BOOKERO and check off which type of user they will be.

Remove or stock out books wireframe:

The Admin can add or remove books added from the publisher if seemed unfit to been on the page.

Approve/Deny Users as an Admin wireframe:

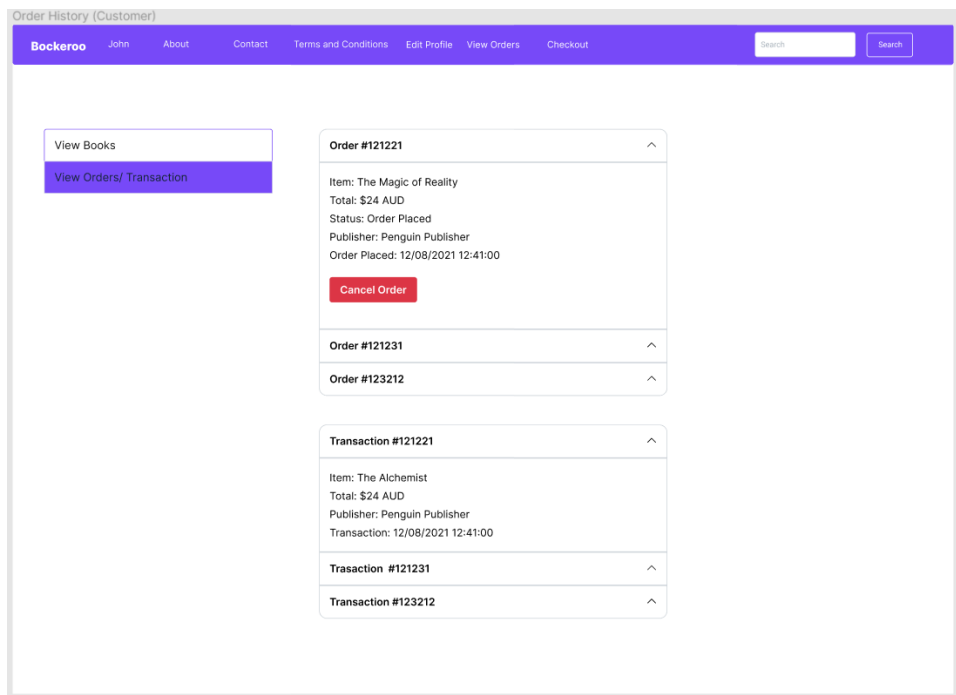

Admins can approve and deny any user that is trying to register into the BOOKERO page. This is important as some users can have inappropriate names/images where the admin will have to deny access.

Summary/Report admins can view wireframe:

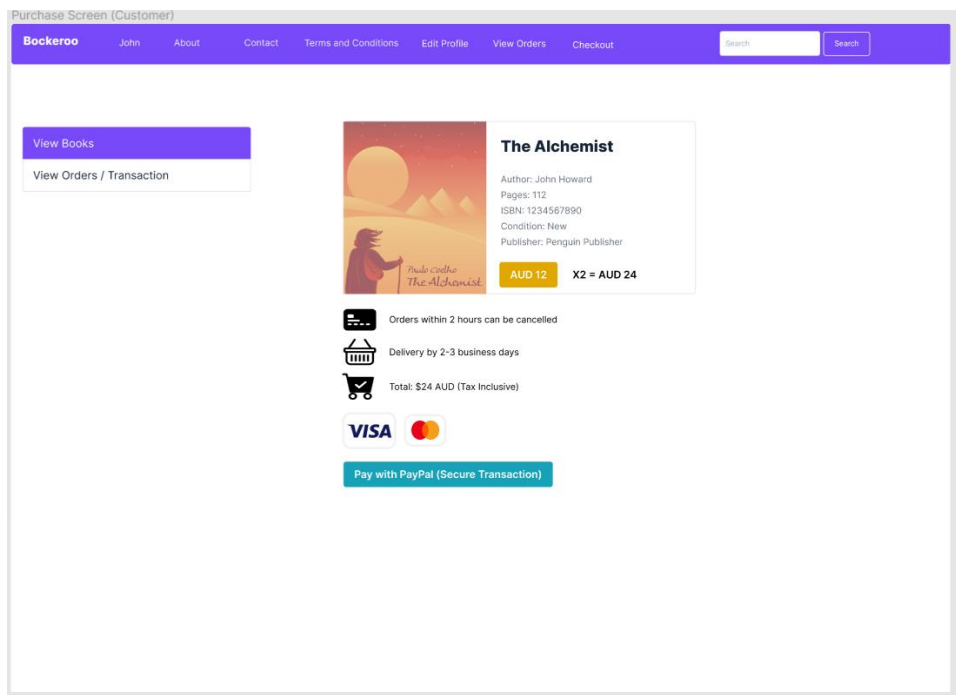

The admin can view the reports and summary generated by users and publishers to make greater decisions while planning/reviewing.

Order History for customers wireframe:

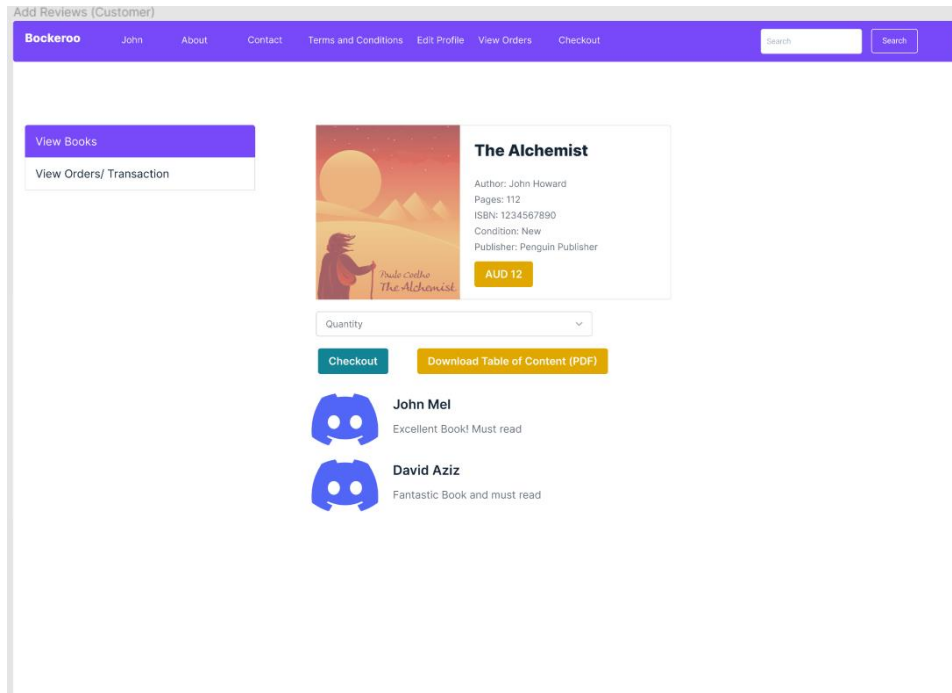

The customer can view their order history of their purchases and cancel any order placed.

Purchase Screen for customers wireframe:

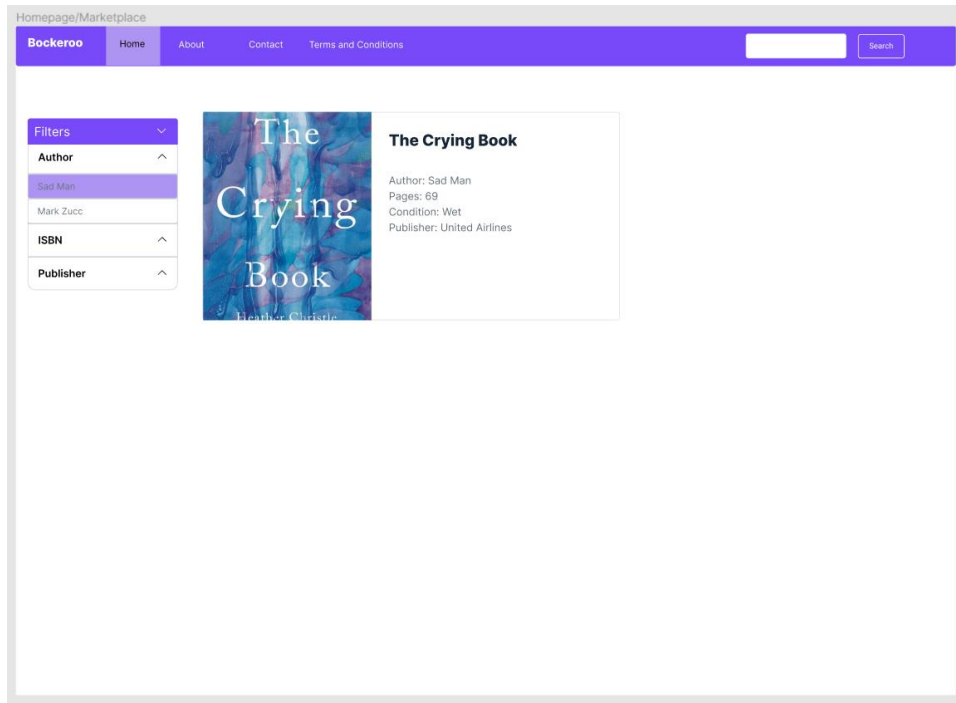

Customers can review their purchases before confirming payment to prevent any unwanted errors and mistakes

Add review for customers wireframe:

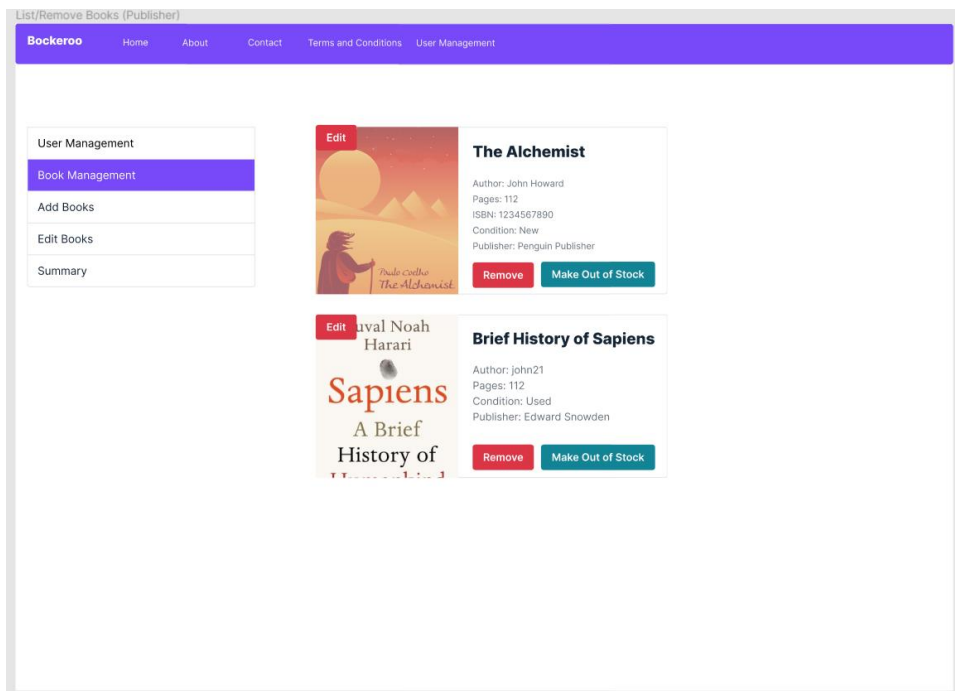

Customers can add reviews and give important feedback to publishers and other customers planning on purchasing the book. This can also give admin vital feedback and see customer satisfaction.

Homepage/Marketplace wireframe:

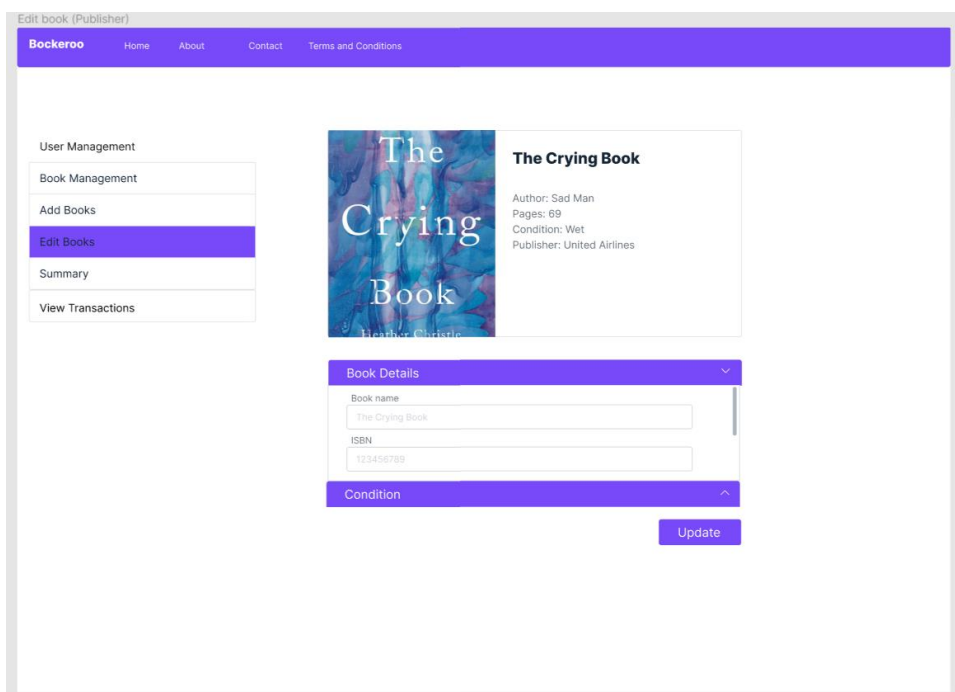

The homepage of the BOOKERO page will be the main user interface for users to search for books published and publishers to view their books

List/Remove books as a Publisher wireframe:

Publishers can list all their books and remove their books from the BOOKERO page. Also, if their book becomes out of stock, they can show users it's currently out of stock.

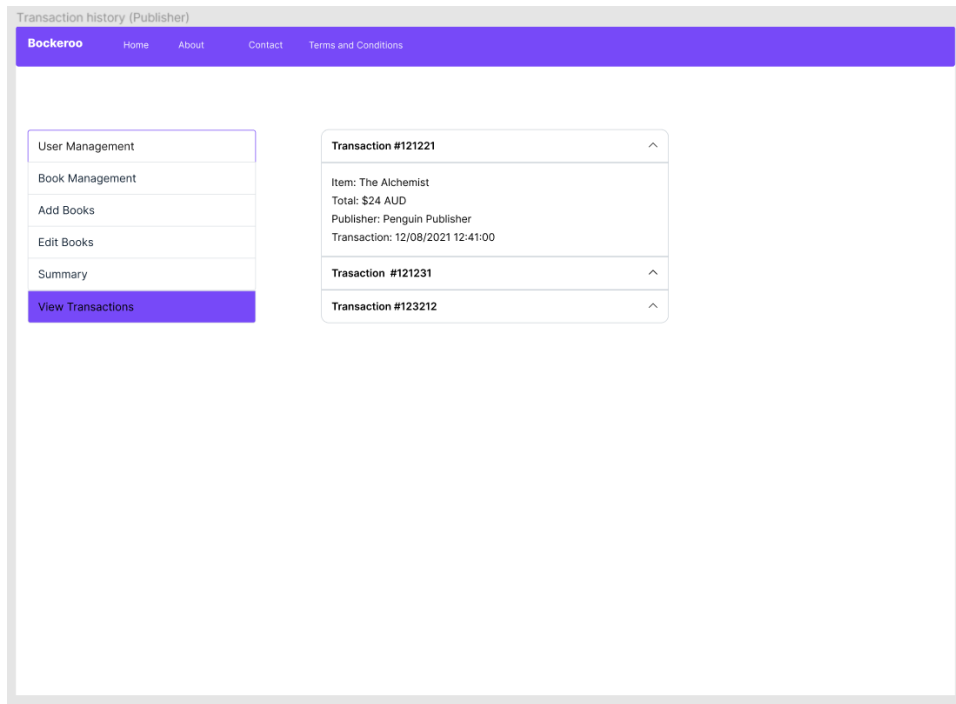

Edit book as a Publisher wireframe:

Publishers can edit their books on BOOKERO to constantly keep the correct information updated

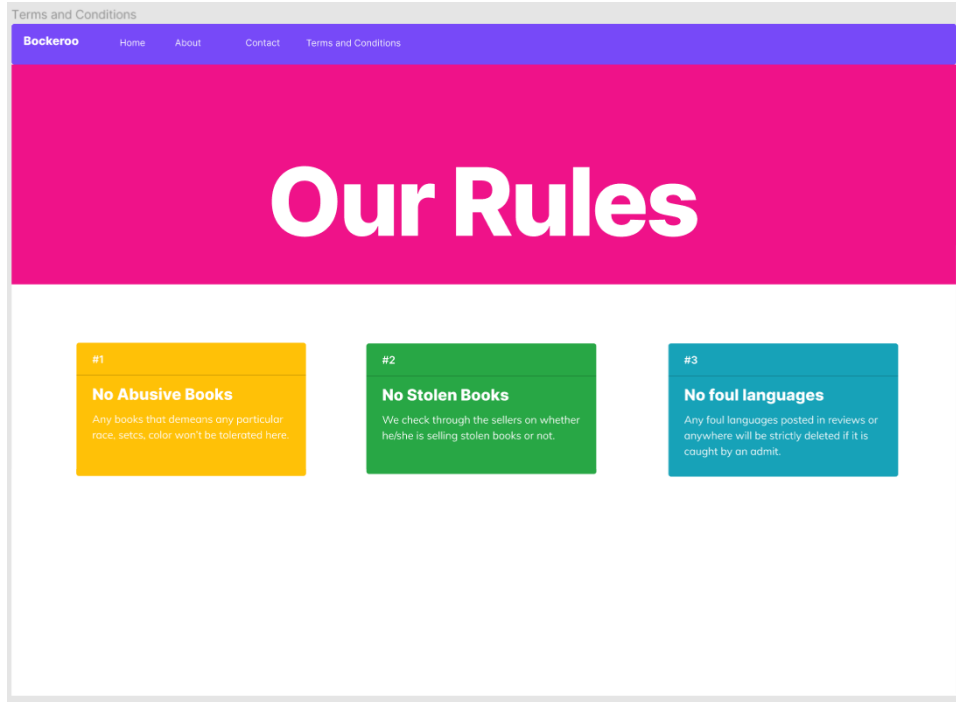

## Transaction History as a Publisher wireframe:

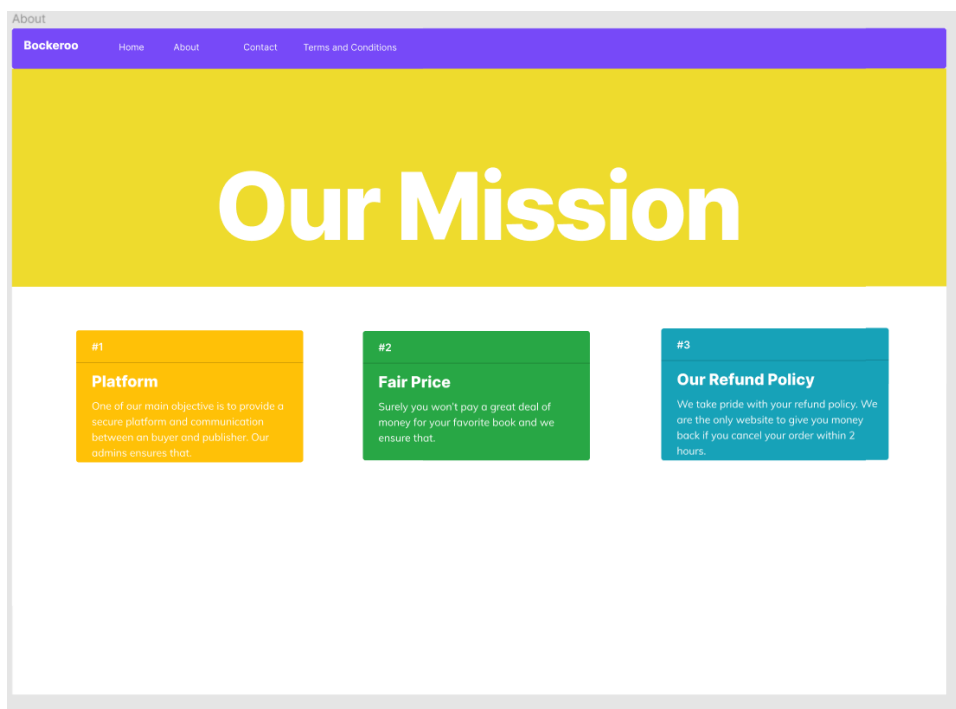

Publishers can view their transaction history in order review their order and use it for potential refunds.

## Terms and Conditions wireframe:

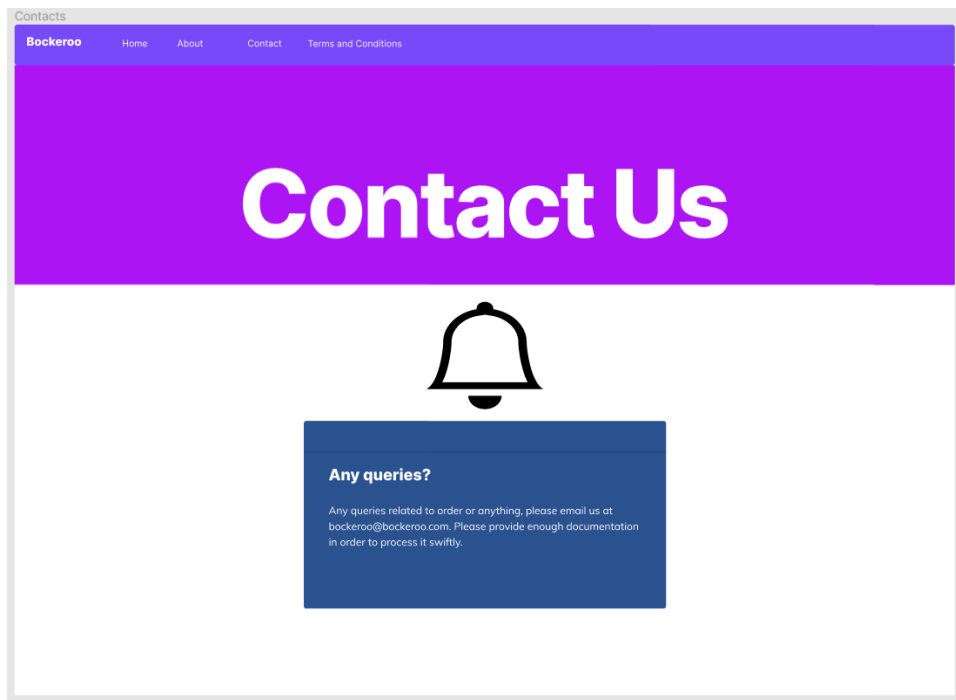

The terms of conditions of BOOKERO for all users to make sure each user is well aware of the regulations of terms of use.

About Wireframe:

Our mission wireframe lets users aware of our goals and gives insight to our BOOKERO site with questions frequently asked.

Contact Wireframe:

This wireframe allows for users to ask questions/queries about anything they are confused about and need for further clarification
